Questions to Ask a Fertility Specialist at Your First Appointment

www.tennesseereproductivetherapy.com

1. Have you treated patients with my/our situation before? What is your success rate with patients like me?

2. What type of testing do you recommend for me/us?

3. Will you be the only doctor I see? Who do I contact if I have a question?

4. What alternative therapies do you recommend? Are there any lifestyle changes you suggest that I/we make?

5. What is your timeline for our case?

6. Are there side-effects to medication that I should prepare for?

TENNESSEE
Reproductive Therapy

7 How many IUIs do you recommend before starting IVF?

8 How long will you monitor me once I achieve pregnancy?

9 What do you recommend if you retrieve more eggs than I need for our goal number of embryos? What are my options for any embryos that are not used?

10 Am I a candidate for a natural IVF cycle?

11 How much will each cycle cost and who is my contact for financials? What financial programs or grants are available to me?

12 How do you change your treatment plan if interventions are unsuccessful?
